

NAESIP, LLC

Environmental Insurance

The National Alliance of Environmental Specialists Insurance Program was developed in conjunction with environmental consultants and contractors. NAESIP provides a full range of insurance administration, claims management, and risk control services.

NAESIP reduces the cost of environmental business coverage while offering the most comprehensive coverage possible. Small and midsize firms receive the same level of insurance services and expertise that is usually reserved for larger companies.

Our Exclusive Environmental Programs Include:

- General Liability, Pollution, and Professional coverage
- Excess policy available to cover over general liability, pollution, professional, employers liability, and business automobile coverage limits
- Supplemental Limit provides defense coverage outside of general liability limit
- Property coverage can include business income and/or extra expense limits
- Underground and down-the-hole coverage endorsements designed for environmental concerns
- Coverage for Income Loss due to damaged equipment
- Plus, we offer Group Benefits and Workers' Compensation Plans as well as many free value added services
