

You've had a fire.

Don't let a disaster put you out of business.

The years it took to build the income stream from your business can be lost in a day...unless you have "life insurance" for every box in your facility.

Your revenue stream is packed in each box you store. Traditional Business Interruption Insurance helps you start running again after a fire or other disaster. But, it does not replace the potential annual income you would have earned from every lost box.

Now you can have **Storage Plus** - affordable Records Management Insurance where you set the "per box" coverage you want. Think of it as life insurance to replace projected future income.

Unlike most Business Interruption Insurance policies where red tape means it can take weeks to settle, the **Storage Plus** claims process is quick and easy.

Storage Plus is available exclusively from Capacity Coverage.
